- 9.4.4. refund to the LICENSEE any payments made by the LICENSEE to the LICENSOR in respect of sales of copies of the LICENSOR'S MATERIAL in question from the date of the notification given by the LICENSEE in accordance with clause 9.4.1 above and the date of the relevant decision; and
- 9.4.5. amend clause 4 above and Schedule B of this Agreement by deleting from such clause 4 above and Schedule B reference(s) to the LICENSOR'S MATERIAL in respect of which such a decision has been made

12. Contracting

- 12.1. The LICENSEE may not contract out work for the purpose of executing the rights granted in this Agreement without first providing to the LICENSOR the full contact details of the proposed contractor involved in the creation of the LICENSEE'S MATERIAL and obtaining the LICENSOR's written consent prior to entering into such agreement. The LICENSOR shall take no more than five WORKING DAYS to notify the LICENSEE of its decision and shall not unreasonably withhold its consent. - 13.3. Such indemnity at clause 13.2 above shall not extend to cover unauthorised or illicit END-USER or third party use of the LICENSOR'S MATERIAL or the LICENSEE'S MATERIAL where the LICENSEE has used its reasonable endeavours to inform END-USERS and third parties of the limitations of this Agreement and to ensure that such use cannot take place.
- 13.4. For the avoidance of doubt such indemnity at clause 13.2 above shall include but not be limited to claims brought by other sovereign states or bodies operating under delegated authority or powers for such sovereign states.
- 13.5. The express terms of this Agreement are in lieu of all warranties, conditions, terms, undertakings and obligations implied by statute, common law, custom, trade usage, course of dealings or otherwise, all of which are excluded to the fullest extent permitted by law.

- 14.3. Upon receipt from the LICENSEE of a notification in accordance with clause 14.2.1 above the LICENSOR shall promptly, and in any event within 5 WORKING DAYS of receipt of such notification, confirm to the LICENSEE in writing whether the LICENSOR considers the claim to arise out of or in connection with this Agreement and whether it is attributable to the acts or omissions of its employees, agents or contractors.

Upon receipt of notification issued in accordance with clause 14.7 above the LICENSEE may elect to take conduct of the claim and shall within 5 WORKING DAYS of its receipt of the notification inform the LICENSOR in writing of its decision, and prior to the expiry of such 5 WORKING DAYS or receipt of the

LICENSEE's decision, as the case may be, the LICENSOR shall not take any action in relation to settlement, compromise or defence of the claim.

- 14.9. If the LICENSEE elects pursuant to clause 14.8 above to take conduct of the claim it shall be entitled to settle or defend the claim as it sees fit and the LICENSOR shall upon the request of the LICENSEE render to the LICENSEE all reasonable assistance to enable the LICENSEE to settle or defend the claim.

15. Assignment and sub-licensing

- 15.1. The LICENSEE is not entitled to sub-license any of its rights or obligations under this Agreement except the limited rights in clause 5.5 above. Unless otherwise agreed between the PARTIES in writing, the PARTIES shall have six months to negotiate such replacement provisions, and if agreement cannot be reached in that period, or it is not possible to construct such provisions, then the Agreement shall be terminated immediately and the LICENSEE shall deal with all material relevant to this Agreement as provided for in clause 20.9 below.

 - 20.3.2. if the LICENSEE fails to remedy such breach within the specified period terminate this Agreement with immediate effect by notice in writing to the LICENSEE.

Simple interest shall be payable on such late payments and shall be calculated at a rate of 4% per annum above the latest published annual average of the Bank of England repo rate (IUAABEDR) calculated on a daily basis for each day from the date payment was due.

The LICENSEE shall also ensure that, at the LICENSEE's expense, the LICENSOR'S MATERIAL is immediately destroyed or returned to the LICENSOR as required by the LICENSOR.
- 20.7. Termination of this Agreement shall be without prejudice to the rights and liabilities of either PARTY that may have accrued up to and on the date of termination.

- 20.9. Except as stated in clause 20.11 below, in the event of the termination pursuant to clause 20.2 above, 20.3.2 above or 18.2 above the LICENSEE shall as soon as practicable destroy or procure that others destroy any LICENSEE'S MATERIAL held by the LICENSEE or its employees or contractors or other persons acting on its behalf as a result of the operation of this Agreement.
- 20.10. Except as stated in clause 20.11 below, in the event of the termination of this Agreement by notice pursuant to clause 20.1 above or 20.5 above the LICENSEE shall as soon as practicable and at its own expense restrict use of any pre-existing LICENSEE'S MATERIAL to that strictly necessary to provide support to END-USERS for a maximum period of 1 year from the date of termination.
- 20.11. In the event of the termination of this Agreement for any reason, the LICENSEE shall be entitled to archive the LICENSEE's MATERIAL indefinitely. - 22.1. This Agreement shall be governed by and construed and interpreted in accordance with English Law and the PARTIES submit to the exclusive jurisdiction of the English Courts.

Schedule A

Licence and supply fees

1. This Schedule A shows the methodology the LICENSOR will use to determine the licence and supply fees for each of the LICENSEE'S MATERIAL shown in Schedule B. Once calculated, the LICENSOR shall show the actual licence fees payable within Schedule B.
2. The methodologies used are described in a series of Annexes to this Schedule, one Annex for each type of data licensed under this Agreement and described in clause 4 of the main Agreement.
3. The total supply and licence fees are determined by adding together the individual supply and licence fees calculated from each methodology (where it applies).

Annexes to this Schedule

4. The table below shows the annexes to this Schedule.

Annex 1 to Schedule A

Chart data

Annex 2 to Schedule A

Tidal data (simplified harmonic constants)

Annex 1 to Schedule A

1. *Licence fees for the re-use of chart data*

- 1.1. If the LICENSEE'S MATERIAL is derived from the chart data described in clause 4.2.1 of the main Agreement, then the following licence fees will apply, in addition to any other licence fees that apply.
- 1.2. The following are the additional requirements (which are either mandatory or optional) to qualify for the licence fee described in this Annex 1 to Schedule A:
- 1.2.1. **Mandatory:** The LICENSEE shall only permit the END-USER to use the LICENSEE'S MATERIAL for the PERMITTED PURPOSES.
 - 1.2.2. **Mandatory:** The LICENSEE shall technically disable access to the LICENSEE'S MATERIAL within one month of expiration or termination of an END-USERS licence agreement.
 - 1.2.3. **Optional:** The LICENSEE may provide either the technical ability to allow the LICENSEE'S MATERIAL to be used by more than one END-USER simultaneously or permit the LICENSEE'S MATERIAL through an END-USER licence agreement to be used by more than one END-USER. If the LICENSEE chooses to use this option, the LICENSEE shall use its best endeavours to ensure that only the permitted number of END-USERS can use the LICENSEE'S MATERIAL.
 - 1.2.4. **Mandatory:** The LICENSEE shall only grant END-USER licence agreements for a maximum of four years. Such END-USER licence agreements may be renewed for up to a further four years during the final year of the END-USER licence agreement on condition that such END-USER licence agreements are revised to reflect any amendments made to this Agreement up to the date of renewal.
 - 1.2.5. **Optional:** If the LICENSEE'S MATERIAL is provided digitally, the LICENSEE may permit the END-USER to make one full copy of the LICENSEE'S MATERIAL for archive or backup purposes.
 - 1.2.6. **Optional:** If the LICENSEE'S MATERIAL is provided digitally, the LICENSEE may permit END-USERS to replicate the screen image to other devices within the same physical location or within 300 metres so long as such images cannot be used independently by more than the permitted number of END-USERS.
 - 1.2.7. **Optional:** The LICENSEE may provide END-USERS with the facility for the END-USERS to update the LICENSEE'S MATERIAL from updating material published by the LICENSOR in the form of notices to mariners.
 - 1.2.8. **Mandatory:** The LICENSEE shall restrict the update service provided to the END-USER from the LICENSOR'S MATERIAL to only include updates within the same (or smaller) geographical area, compiled at the same or smaller scale, already licensed to the END-USER.
- 1.3. For the purpose of determining licence fees, chart data has been grouped into cells. Each cell of chart data covers a $\frac{1}{2}^{\circ} \times \frac{1}{2}^{\circ}$ area, measured from the south west corner of each whole or half degree meridians of longitude and latitude. The spreadsheet dated 14 December 2005 and titled "[\(OM\) Commercial licence agreement - Oman cell values - 14 December 2005.xls](#)" which forms part of this Agreement, shows a list of all cells where the cell content of the CUSTODIANSHIP ORGANISATION is greater than 0%. The LICENSOR reserves the right to reassess and change the value of any cell and may include new cells. The

LICENSOR shall give the LICENSEE no less than 6 months notice of any such changes and such changes shall then take effect from the start of the next ACCOUNTING PERIOD after the end of the notice period.

1.4. The basic licence fee for the use of chart data is calculated by totalling the value of all cells covered (in whole or part) by the LICENSEE'S MATERIAL, taking into account the cell content and the compilation scale of the data within each cell as follows:

1.4.1. Count the number of A, B, C, D or E cells covered by the LICENSEE'S MATERIAL but exclude any cells if no chart data has been reproduced from those cells (e.g. the area of the LICENSEE'S MATERIAL covering the cell is actually blank space) (see paragraph 1.5 below of this Annex 1 to Schedule A).

1.4.2. Apply any discounts to any cell within the LICENSEE'S MATERIAL that is reproduced from chart data originally published at a smaller scale than 1:30,000 (see paragraph 1.6 below of this Annex 1 to Schedule A).

1.4.3. The final licence fee for chart data shall be calculated by applying additional charging factors to the basic licence fee. These additional factors are determined by how the LICENSEE'S MATERIAL is provided to END-USERS as follows:

1.4.3.1. Assess the duration of the LICENSEE'S MATERIAL, compare them with the criteria at paragraph 1.8.5 below of this Annex 1 to Schedule A and apply the highest appropriate multiplier.

1.4.3.2. If applicable, assess the number of END-USERS that shall access the LICENSEE'S MATERIAL, compare them with the criteria at paragraph 1.8.6 of this Annex 1 to Schedule A and apply the highest appropriate multiplier.

1.5. Cell content

1.5.1. The LICENSOR has assigned each cell a value depending on the amount of sea area it covers and the total proportion of the cell derived from the LICENSOR'S MATERIAL.

1.5.2. The LICENSOR determined the cell content by multiplying the percentage of the LICENSOR'S MATERIAL in the cell by the percentage of the cell covered by water.

1.5.3. The LICENSOR determined the cell value by reference to the cell content in the table below.

Band	Cell content	Cell value
A	= 75%	1.00 unit
B	= 50% and < 75%	0.75 units
C	= 25% and < 50%	0.50 units
D	= 5% and < 25%	0.25 units

Band	Cell content	Cell value
E	< 5%	0.00 units

1.5.4. The cell values for each cell are shown in the spreadsheet described in paragraph 1.3 of this Annex 1 to Schedule A.

1.6. Scale content

1.6.1. A discount shall then be applied to each cell covered by the LICENSEE'S MATERIAL if it was created from data originally compiled at a natural scale smaller than 1:30,000. The applicable discounts are shown in the table below.

Scale	Discount applied to unit
= 1:30,000	0%
> 1:30,000 and = 1:75,000	50%
> 1:75,000 and = 1:150,000	65%
> 1:150,000 and = 1:350,000	90%
> 1:350,000 and = 1:1,250,000	97%
> 1:1,250,000	100%

1.6.2. If the LICENSEE'S MATERIAL was created from many sources at different scales, then the LICENSOR shall assume that the LICENSEE has used the largest scale available from the LICENSOR unless the LICENSEE can demonstrate to the satisfaction of the LICENSOR they have used a smaller scale. The largest scale available for each cell is shown in the spreadsheet described in paragraph 1.3 of this Annex 1 to Schedule A.

1.7. Basic licence fee

1.7.1. The cell price before any discounts or factors are applied is as follows (for the applicable period in which the LICENSEE'S MATERIAL was sold):

Period	Cell price
1 January 2005 onwards	£19.60

1.7.2. The basic licence fee shall be calculated by totalling the value of all cells covered (in whole or part) by the LICENSEE'S MATERIAL, taking account of any discounts applicable to the compilation scale of the data within each cell as defined in paragraph 1.3 of this Annex 1 to Schedule A and then multiplying this by the cell price. For example, the LICENSEE'S MATERIAL cover two A cells and a C cell, all at an original compilation scale of 1:50,000 – the basic licence fee would be $(1.00 + 1.00 + 0.50) \times 50\% \times £19.60 = £24.50$ if sold between 1 January 2005 and 30 June 2006.

- 1.7.3. The LICENSOR shall exclude any cells from the calculation if the LICENSEE has reproduced no chart data from those cells (e.g. the area of the LICENSEE'S MATERIAL covering the cell is actually blank space).

1.8. Additional charging factors

- 1.8.1. The LICENSOR shall apply the following factors to each of the LICENSEE'S MATERIAL once it has assessed its geographical content (i.e. determined the basic licence fee).

1.8.2. Product content

- 1.8.2.1. Where the LICENSEE has only used a sub-set of the features within the chart data, the basic licence fee shall be modified by the sum of all the listed modifiers shown in the table below subject to a maximum modifier of 1. A modifier will be applied regardless of how many features of that type are used.

1.8.3. Product format

1.8.3.1. The basic licence fee shall be modified depending on the format the LICENSEE'S MATERIAL is supplied to the END-USER as follows:

Format	Modifier to cell price
Raster (bitmap) format	0.7
Vector format	1.3
Vector and raster format	1.5

1.8.4. Product protection system

- 1.8.4.1. The basic licence fee shall be modified depending on the technical protection system used to ensure the LICENSEE'S MATERIAL cannot be reproduced by unauthorised third parties as follows:

Protection system	Modifier to cell price
No technical protection system	1.0
Unique identifying watermark or fingerprint included within all data supplied with the LICENSEE'S MATERIAL	0.9
Industry standard encryption system	0.7

1.8.5. Product duration

- 1.8.5.1. The basic licence fee shall be modified by a charging factor determined by how long the product is legitimately available to the END-USER.
- 1.8.5.2. The licence fee shall be higher if the LICENSEE'S MATERIAL is accessible to the END-USER for more than a year; it shall be lower if the LICENSEE'S MATERIAL is accessible for less than 9 months as follows:

End-user licence duration	Duration level	Applicable duration charging factor
Greater than 12 months and less than or equal to 48 months	D1	1/12 (0.0833) per month
Greater than or equal to 9 months and less than or equal to 12 months	D2	1.0

- 1.8.5.3. In the interests of safety, the LICENSOR shall permit the LICENSEE to allow END-USERS to access the LICENSEE'S MATERIAL for an additional month after the end of the END-USER licence period on the condition that the LICENSEE frequently and prominently notifies the END-USER that the licence period has expired.

1.8.6. Multi-user licensing (local users)

- 1.8.6.1. The basic licence fee shall be modified by a charging factor determined by how many people are permitted to use the LICENSEE'S MATERIAL locally.

- 1.8.6.2. A local user accesses the LICENSEE'S MATERIAL directly using a computer with appropriate software. The LICENSEE'S MATERIAL is 'in use' on a computer when it is loaded into the temporary memory (i.e. RAM) or installed into the permanent memory (e.g. hard disk drive) of that computer. Client workstations that run software that can access the LICENSEE'S MATERIAL via an application server (often known as a thin client) constitute local users.

1	UL1	1.0
2	UL2	1.5
3 to 5	UL3	2.0
6 to 10	UL4	3.0

151 to 200	UL9	8.0
More than 200	UL10	Price on application

- 1.8.6.3. The LICENSOR shall determine the maximum number as the lower of either the number of workstations from which people shall access the LICENSEE'S MATERIAL or the total number of local users who have access to the LICENSEE'S MATERIAL (this does not have to be concurrent access).

- 1.8.6.4. The LICENSOR shall determine the number of people as qualifying for the above multi-user charging factor only if they (or their workstations) are normally (more than 50% of their working time) based in the same physical site. The LICENSOR will treat people or workstations on other physical sites as being a separate sale for which a separate licence fee will be payable.

1.8.7. Multi-user licensing (remote users)

- 1.8.7.1. A remote user accesses the LICENSEE'S MATERIAL via a restricted World Wide Web service such as WebGIS. The LICENSEE'S MATERIAL is not loaded into memory (either temporary or permanent) but is displayed only as a single raster image on the client workstation within an Internet browser (or similar).

- 1.8.7.2. If the LICENSEE permits the END-USER to allow remote user access to the LICENSEE'S MATERIAL by a restricted World

Wide Web service (for example using a virtual private network) and the raster image contain more than 256,000 pixels or there is more than one raster image available at any one time then the basic licence fee shall be modified by a charging factor determined by how many people are permitted to use the LICENSEE'S MATERIAL remotely.

Annex 2 to Schedule A

1. ***Licence fees for the re-use of tidal data (simplified harmonic constants)***

- 1.1. If the LICENSEE'S MATERIAL is derived from the tidal data described in clause 4.2.2 of the main Agreement, then the following licence fees will apply, in addition to any other licence fees that apply.
- 1.2. The LICENSOR makes no charge for the LICENSEE to reproduce tidal material listed in clause 4.2.2 of the main Agreement where such reproduction is limited to the minimum required to determine the time of high waters for reference ports which are then used within calculations to calculate the rate and direction of horizontal tidal streams from chart data.
- 1.3. Except as stated in paragraph 1.2 above of this Annex 2 to Schedule A, if the LICENSEE reproduces tidal data in the LICENSEE'S MATERIAL in digital format then the LICENSOR shall charge the LICENSEE a fixed price for each copy of LICENSEE'S MATERIAL distributed that contains reproductions or derivations of the tidal material listed in clause 4.2.2 of this Agreement according to the number of tidal stations included with the distributed LICENSEE'S MATERIAL:

Number of ports in product or service	Licence fee per copy distributed
For up to 100 ports	£0.50
